GE Aerospace

- Manage data management projects and technology initiatives, focusing on "data choreography"
- Develop and monitor comprehensive project plans, ensuring efficient progression and met timelines
- Implement risk management and communicate with stakeholders to solve issues proactively
- Create and maintain project documentation to enhance quality assurance and system integrity
- Develop and implement metrics for clear tracking and status reporting to senior management
- Collaborate with cross-functional teams to drive project success during GE's major trifurcation

Technical Project Manager   July 2022 - June 2023
Shepherd Communication & Security

- Led cross-functional teams of 10-12 technicians, managing the delivery of complex security system projects
- Developed comprehensive project plans for Fire/Perimeter Alarm, Access Control, CCTV, and Data Cabling projects
- Served as the primary liaison between Shepherd and customers, ensuring clear communication and project alignment
- Managed project scope, timelines, and resources of 500+ projects PM software, beating deadlines by 10% on average
- Performed data analysis using Microsoft Excel to produce insightful project reports and optimize performance

Project Manager (Central East Energy Connect)   Nov 2020 - June 2022
Northern Clearing, Inc.

- Managed a team of 40 individuals on a large-scale infrastructure project covering 100+ miles of electrical poles
- Developed and executed risk management strategies to ensure project continuity and success
- Created timely, accurate reports in a fast-paced field labor environment, maintaining high-quality metrics and internal deliverables
- Produced various project documents including PoDs, RFIs, memorandums, trackers, and charts for an Article VII job
- Managed project scope, timelines, and resources to align with NY's mandate of zero-emission by 2040

Jonathan "Jonny" Blevins

🏠 Troy, New York   📧 blevinsjonny@gmail.com   🏢 linkedin.com/in/jonnyblevins

💻 jonnyblevins.com   github.com/jonnyblevins

Tech Specialist | Assistant Business Manager   May 2020 - Nov 2020
Cox Well Services, LLC

- Developed project estimates and schedules, contributing to winning $800,000 in project bids for a 30-man crew
- Improved the company website's user interface, applying web design skills for better UI/UX experience
- Kept certification records up-to-date, ensuring compliance with industry standards

Field Planner (Mountaineer Xpress, Leech Xpress)   Feb 2017 - Jan 2019
Columbia Group/TC Energy % System One

- Utilized Oracle Primavera P6 and Microsoft Project to generate schedules with milestones for large-scale energy projects ($24 billion in U.S. Major Projects)
- Tracked materials, legal paperwork, and takeoffs to ensure meeting project goals for major energy companies
- Worked with vendors on Purchase Orders, maintaining current shipping dates and highlighting critical issues
- Performed quality control checks on received materials, including identification and photographic documentation
- Managed administrative tasks including payroll and receipt tracking using SAP
- Used a secure OneDrive system to upload all material paperwork and certification, ensuring that the entire project's documentation was all centrally located, future-proofing any future legal matters
